EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephanie W. Yeung on 2/9/2005 (see Interview Summary).

The application has been amended as follows: Please **cancel** Claims 20 and 23.

2. The following is an examiner's statement of reasons for allowance:

The instant claims are allowed for the reason that the cited prior art does not teach or fairly suggest the presently claimed method, which is a process for isolating a target nucleic acid fragment having known characteristic, wherein the method comprises the combination of the method steps. These steps combination are: 1) *"subjecting said first initial library to a plurality of restriction enzymes individually wherein digestion of said library is performed in parallel by each individual restriction enzyme, to produce a group of monodigested libraries which correspond in number to the number of plurality of restriction enzymes used"*; 2) *"screening said group of monodigested libraries individually for said known characteristic to detect the presence of said target fragment, to thereby determine those restriction enzymes to which said target fragment is insensitive"*; and 3) *"producing a multidigested library by digesting said second initial library with all of said the plurality of restriction enzymes to which said target fragment is*

insensitive as determined in step e (that is the screening step 2), and obtaining said multidigested library which contains the target nucleic acid fragment”.

Furthermore, the 112, 2nd rejections were withdrawn in view of the amendments to claims 1, 16, 18, and 19 filed on 1/31/2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
